Kitchen and Bathroom Remodel

This is a sample project illustrating how one could use the program in the context of a remodeling contractor. This sample database is tailored for remodelors, but is completely customizable and may be easily adapted for new-home construction, subcontractors, or a wide variety of other applications. You may use this database as a starting point for developing your own, or you can load the blank database that came with this program and build one up from scratch. We recommend that you first practice using the sample database (currently loaded).
